#### FINANCIAL COMMENTARY FOR THE 9 MONTHS ENDED 30TH SEPTEMBER 2024

- Customer deposits cross Rs 1.6 Tn
- o Contribution to Government revenue by way of taxes exceeds Rs 25 Bn for 9M
- Continues to maintains strong capital and liquidity levels
- Asset quality further strengthened with net stage 3 ratio at 3.32% and provision coverage ratio at 60%

HNB Group recorded a PAT of Rs 23.7 Bn growing by 26% YoY, while the Bank's Profit After Tax increased by 34% YoY to Rs 22.2 Bn for the nine months ended September 2024.

Decline in AWPLR by nearly 50% compared to last year and remaining at an average level of 10% for the first 9 months directly reflected in the loan yields as the loan book repriced at lower rates leading to a considerable 25% decline in Gross Interest Income for the period. The Interest Expense also recorded a 29% drop in line, supported by the strong growth in CASA deposits. The resultant NII for the period was recorded at Rs. 68.5 Bn, reflecting an 18% YoY contraction.

Bank's efforts to minimize the impact of interest rate volatility, resulted in a 10% YoY growth in Net Fee and Commission income despite trade income being relatively lower compared to the previous year with the normalizing of the trade tariff to pre-crisis levels. The growth in fee income was largely driven by higher cards and digital transactions in line with the efforts to drive a cashless economy.

The support extended to customers to revive their businesses, concerted efforts on collection and the overall improvement in economic activity enabled the Bank to record superior asset quality compared to the industry. The net stage 3 ratio improved to 3.32% while the stage 3 provision coverage ratio improved to 60.50%, during the quarter, compared to 4.09% and 56.08% recorded in 1H 2024. The total impairment charge for the nine months amounted to Rs 3.2 Bn, compared to Rs 32.4 Bn for the same period in 2023. The impairment charge for the previous period included an amount of Rs 25 Bn on account of Bank's investments in international sovereign bonds (ISBs). With the agreement on the external debt restructuring, in line with the industry practice, the Bank maintained its provision cover of 52% on the investments in ISBs. This together with the positive movement in stage-wise loans, led to a significant reduction in the impairment charge for the period.

As of 30<sup>th</sup> September 2024, the Bank's gross loans and advances which saw a drop in the first quarter recorded a net growth of Rs 91.1 Bn since, reaching Rs 1.1 Tn. The Bank's deposit base continued to grow significantly, reaching Rs 1.62 Tn, driven by a remarkable increase of Rs 79.9 Bn in LKR CASA over the nine months of 2024. This has elevated the LKR CASA ratio to 35.8% from 31.8% in December 2023.

HNB's Tier I and Total Capital Adequacy Ratios stood at 15.51% and 20.01% against the minimum statutory requirements of 9.5% and 13.5% respectively. The tier II ratio was further strengthened during the quarter, by the successful issuance of Basel III compliant subordinated debentures, amounting to Rs 12 Bn. HNB continued to maintain a strong liquidity position with an all currency Liquidity Coverage Ratio of 297.39%, against the minimum statutory requirements 100%.

HNB is rated A (lka) by Fitch Ratings and was adjudged the "Sri Lanka's Best Bank" and "Sri Lanka's Best Bank for SMEs" by Euromoney Magazine in 2024. In addition, HNB was also recognized as the "Best Retail Bank in Sri Lanka" for the 14<sup>th</sup> occasion and "Best Automobile Financing for Asia Pacific" by the Asian Banker. HNB was ranked the Number 1 Company in Sri Lanka by Business Today in its Top 40 Businesses ranking for 2023-24. HNB was recognized as one of the Top 25 Corporates at the LMD Awards which was held honouring 25 most awarded Sri Lankan Corporates.

#### **FAIR VALUE DISCLOSURE OF FINANCIAL INSTRUMENTS**

#### Fair value Disclosure of Financial Instruments

The Group measures the fair values of financial instruments using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

#### Level 1: Fair value measurement using unadjusted quoted market price

When available, the fair values of financial instruments are determined using quoted market prices (unadjusted) in active markets for identical instruments. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis. Accordingly, the fair values of treasury bills and bonds have been derived using the market yields and market prices published by Central Bank of Sri Lanka while fair value of quoted equity securities and Sri Lanka Sovereign Bonds have been valued using the quoted market prices as at the reporting date

#### Level 2: Fair value measurement using significant observable inputs

In the absence of an active market for a financial instrument, the fair value is determined using quoted market prices in active markets for similar instruments or quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques in which all significant inputs are directly or indirectly observable from market data. The spot and forward premiums available as at the reporting date have been used to estimate the fair value of derivative financial instruments while the fair value of unquoted units have been measured using manager's selling prices. The fair values of financial assets and financial liabilities carried at amortised cost have been estimated by comparing the interest rates when they were first recognised with the current market rates of similar instruments.

#### Level 3: Fair value measurement using significant unobservable inputs

Financial instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation.

There are no material changes in the fair value of financial assets categorised under Level 3 compared to the values reported as at 31st December 2023. The Group has not changed the valuation models and assumptions used to measure the fair values of Level 3 financial instruments during the period ended 30th September 2024.
